EXPERIENCE

Client Operations Specialist - Cero Agency | B2B Contractor via Valls Solutions LLC | Remote | March 2026 - September 2026

- Managed post-sale client operations for Thailand visa and U.S. LLC formation services, including document collection, application follow-up and client communication.
- Coordinated administrative workflows for U.S. company formation and business banking onboarding.
- Collected and reviewed client documentation, tracking multiple concurrent cases.
- Explained process steps and documentation requirements to clients, resolving operational issues.
- Ensured timely completion of each service by coordinating required steps end-to-end.

Senior ICT Technician / Systems Administrator - Foment Formació | Feb 2021 - Feb 2024

- Provided technical support across users and infrastructure, including hardware, software and networking.
- Administered Google Workspace and Microsoft 365 environments, including user accounts and permissions.
- Managed Linux and Windows systems, network backups and general IT maintenance.
- Worked with SQL databases and maintained an internal Laravel/PHP application for administrative workflows.
- Diagnosed and resolved technical incidents affecting users and systems.

ICT Technician - Foment Formació | Oct 2019 - Mar 2020

- Supported infrastructure deployments, maintenance and troubleshooting.

Junior Java Developer - Universitat Oberta de Catalunya | Feb 2017 - Jun 2017

- Developed internal Java tools and database integrations.

ADDITIONAL EXPERIENCE

Blockchain Research & Security Analyst - Valls Solutions LLC | Remote | Feb 2026 - Sep 2026

- Conducted on-chain investigations to identify fraud patterns, wallet risks and suspicious blockchain activity.
- Produced structured technical reports focused on blockchain security and risk analysis.

Blockchain Research & Security Analyst - Independent | Remote | Mar 2024 - Feb 2026

- Conducted on-chain investigations to identify fraud patterns, wallet risks and suspicious blockchain activity.
- Collaborated with digital projects and content creators on scam prevention and wallet investigation.

Twitch Content Creator - Personal Project | Remote | Mar 2020 - Feb 2021

- Created and managed regular live-stream content on Twitch.
- Configured streaming software and audio/video equipment while managing live broadcasts and community interactions.
